

PLANT / HARVEST SCHEDULE

Each block represents 2 weeks, except in the 0 column, which represents one week. To use this chart, write in the date of your average **LAST SPRING FROST** in the space below the 0. Then fill in to the left, the dates of each column at 2 week intervals **BEFORE** that date. Fill in the dates in the columns to the right of 0, the dates **AFTER** the last Spring frost. List the crops that you plan to grow and the beds they will occupy. Use the following key to indicate the weeks of your activities with those crops:

f1 = seeds into 1st flat **f2** = seeds into 2nd flat **c** = seeds into cold frame **p** = plant seeds into the bed **t** = transplant into the bed **h** = harvest **m** = cut for mulch

Bed #	CROP	08	06	04	02	0	02	04	06	08	10	12	14	16	18	20	22	24	26	28	Notes
